

NEW BANK CHARTERED

Many Attend Exercises at
Wake Forest College.

THE AGRICULTURAL BOARD

The Year's Report Shows Increase
Along All Lines of Production—Adulterations Reduced Over 100 per
Cent—School Tax.

(Special to The Times-Dispatch.)
RALEIGH, N. C., May 26.—The Elm City Bank was chartered to-day to do a commercial and savings business. The capital is \$25,000, and the incorporators are John L. Bailey, E. O. McGowan and Emma Bailey.

Large numbers of people went from here to Wake Forest College this morning to attend commencement exercises of the day, the commencement address by Rev. R. P. Johnson, of Fifth Avenue Baptist Church, New York, and the alumni address by Editor J. W. Bailey, of the Biblical Recorder.

Commencement exercises of the A. and M. College are providing one of the principal attractions for Raleigh this week. At 6 o'clock this afternoon there was a brilliant dress parade of the more than 400 cadets, and to-night in the Academy of Music, Hon. Walter H. Page delivered a splendid commencement oration.

BOARD OF AGRICULTURE.
The State Board of Agriculture, in semi-annual session here this week, heard reports of officers of the department, and Commissioner Patterson's report shows an increase of upward of \$8,000 in tax on fertilizers sold in the State, the sales amounting to about 200,000 tons. State Chemist Kilgore's report for that department reviews successful operation of the State's three experiment farms, the work in the analysis of fertilizers, general experiment work and analysis of foods under the new food law.

The report states that under the operation of analysis provided by this law during the past three years the adulteration of food sold in the State has been reduced over one hundred per cent.

SCHOOL TAX-ELECTION.
A telegram from Kenly, on the Atlantic Coast Line, brings the news that a special tax election for graded schools was carried there by a handsome majority yesterday. Governor Aycock and State Superintendent Joyner made speeches there recently.

A circular has been issued by General Manager Aycock offering \$500 reward for the man or men who caused the wreck of the passenger train on the Southern road near here last week. It is claimed that some one placed a spike or other obstruction on the track and caused the engine to leave the rails, causing the wreck.

Judge Pennell has convened Federal Court here for the May term. In charging the grand jury he declared that the Sherman anti-trust law is abundantly sufficient to break up any combination of capital called trusts in restraint of interstate commerce, the responsibility resting with the grand juries to make presentments.

WILCOX CASE.
The second appeal to the Supreme Court in the case of James Wilcox, charged for killing Nell Cropper at Elizabeth City, was argued to-day, E. T. Aydt, of Elizabeth City, and W. M. Bond, of Edenton, for Wilcox, and Attorney-General Gilmer for the State. This appeal came from a decision of the Circuit Court, which was reversed by the Supreme Court. The principal plea for this time is on the ground that the prosecution made out no case sufficient to go to a jury. There are also exceptions to several features of the judge's charge to the jury.

MAMMOTH TEXTILE PLANT
German Capitalists Interested in the
Big Scheme.

(Special to The Times-Dispatch.)
RICHMOND, N. C., May 26.—The announcement that Mr. B. Frank Mebane, of Spray, in conjunction with a syndicate of German capitalists, would build a mammoth textile plant to be equipped with 20,000 spindles and 14,000 looms is causing a good deal of talk in mill circles. It is believed that the plan is to build the plant on a tract of land near the town of Mebane, and that the movement of Mr. Mebane and his associates would seem to indicate that they are preparing to make a large investment in the plant, or more they have been quietly taking options on real estate and water powers near the town of Mebane.

A civil engineer has been engaged to make out the ground and it is understood that Lashaway & Lashaway, of New York, have the contract for preparing plans and specifications for the building. The identity of the German capitalists who are interested in the project is unknown, but it is reported that they were enlisted through the influence of Frederick Vinton, of New York, and other commission merchants of New York.

This is a very strong firm with extensive financial resources, and it is believed that the plan is to build a plant of 20,000 spindles and 14,000 looms, and that the movement of Mr. Mebane and his associates would seem to indicate that they are preparing to make a large investment in the plant, or more they have been quietly taking options on real estate and water powers near the town of Mebane.

RYAN TELLS HIS STORY

Get-Rich-Quick Man Was Bled
to Finish.

(By Associated Press.)
CINCINNATI, Ohio, May 26.—John J. Ryan, whose confessions caused the arrest of Miller and Johns, operated his "get rich quick" turf investment concern from here and from St. Louis, and ran winter races at Newport, Ky. Other warrants have been issued as a result of the investigation of the postoffice inspectors. Ryan is here now, and admits that he operated some time at St. Louis before the inspectors got after him, and later he was called to Washington. Ryan says: "I was sore because I heard others doing business like mine stood in with the Postoffice Department by giving up \$3,000, and I felt that those who were standing in with the department were behind the investigation so as to get me out of their way."

After returning from Washington to St. Louis last November Ryan says he got a telegram from Attorney Johns of Rockville, Md., that John Johns, who he operated to him with the department at Washington, and later Ryan and Johns met in Terre Haute, Ind. There, Ryan says, Johns explained how close he was to Miller and how Miller had accepted a \$2,000 bribe from the Postoffice Department in Washington with the idea that the job had certain "trimmings," such as Ryan says Johns explained Ryan would be able to furnish. Ryan declared he asked \$5,000 to get from Miller a letter from the Attorney-General's office, showing Ryan was entitled to use the mails. Later Ryan says Johns came down to \$2,500, and a proposition was made to Ryan to accept a \$2,000 bribe to pay \$2,000 for literature so would it would pass muster if it was ever taken up in the mails was later accepted. Ryan asserts Johns delivered the letter and literature to him December 10th. Ryan says he gave Johns \$1,000 cash and checks dated December 11th, one for \$2,000 and one for \$1,000.

Then Ryan says he was being wronged smoothly until the trouble February 28th. A week later a fraud order was issued against Ryan, and Ryan says an effort for another shakedown was put on foot, but he would not consent to it. He says he received two telegrams from Johns. Ryan says he preserved all the telegrams and letters.

James McFarland.
(Special to The Times-Dispatch.)
ST. LOUIS, Mo., May 26.—James McFarland died at his home in this place this afternoon after an illness of only a few days with heart disease, aged about 55 years.
